ABOUT THE BRAND

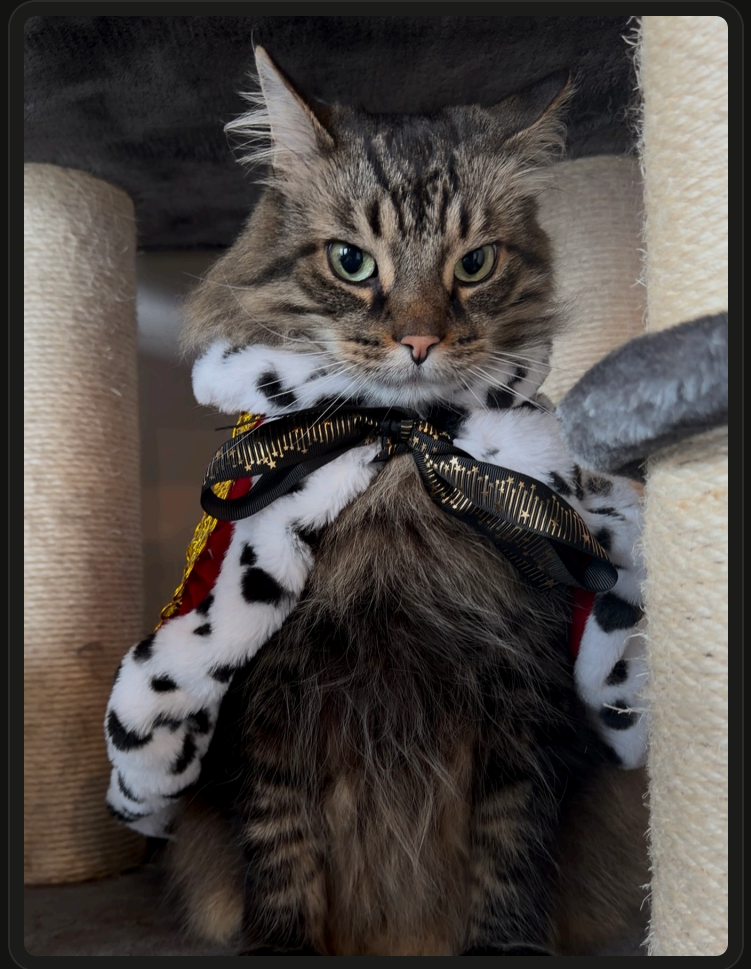

More Than a Cat Page

Mr. Whiskerz is the digital home of Midas, Luna & Bear – a Maine Coon and two kittens with serious star power and an audience that actually shows up. What started as sharing life with extraordinary cats has grown into a thriving community of pet lovers who actually pay attention.

The content spans everything from real-life cat moments and viral memes to polished product features and AI-generated cat content. The audience doesn't just scroll past. They engage, save, share, and buy.

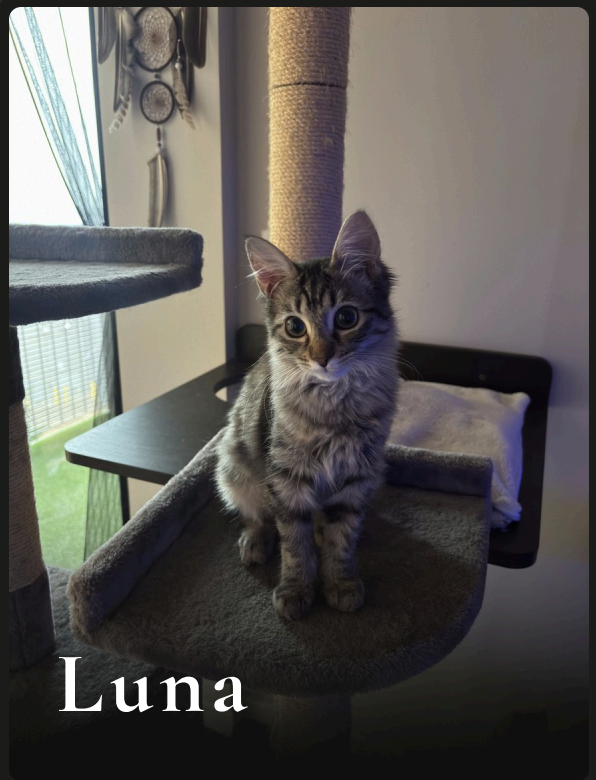

With 190K+ followers, 200M+ views, and 30M+ interactions since launching in January 2026, Mr. Whiskerz isn't just building a community. We're building a real pipeline for brands that want to reach pet lovers who trust what we recommend.

We don't just create content. We turn cat lovers into your customers.
